THE WHOLE STATE IN
ATHLETIC COMPETITION

Out of about 5,000 boys from 17 counties and Baltimore, 423 winners of county and city meets took part in the "State-wide Olympiad" June 11 at Homewood Athletic Field, Johns Hopkins University.

Maryland is thus the first State to recognize the relation of Games and Sports to Education and Character.

STATE WIDE ATHLETICS

SEASON 1915
under direction of the
PUBLIC ATHLETIC LEAGUE

WHAT THE
STATE SUPERINTENDENT
OF EDUCATION SAYS

"I am more than glad to add my testimony to the value of the athletic meet conducted by you and your assistants at the various county educational rallies. This feature was attractive both to pupils and to patrons and friends who attended the exercises. Our Department cannot be too generous in its praise of the contribution you made in having these gatherings favored with an athletic meet so well conducted by yourself and others. I sincerely hope the idea will not only be carried out another year but enlarged upon.

Very truly yours,

(Signed)

M. BATES STEPHENS,
State Superintendent

Maryland has accomplished unique results by its successful athletics during 1915. The State accepted the new doctrine that it had a responsibility for the recreation of its people when the Legislature at its last session appropriated \$4,000.00 to the Public Athletic League in order that the League might extend its activities throughout every County in the State.

The badge test for the individual is three athletic events in which every one who reaches a standard receives an award. Having attained the standards he "passes" just as he does any subject in a school curriculum.

Athletics are "the social, vigorous, fighting plays of youth." Games develop social qualities. When a boy feels a responsibility to his school as its representative, he learns the first lesson of being a member of society. Fair play, honesty and loyalty to others are more easily learned by active participation in games than by any amount of reading or exhortation.

Twenty Counties and the City of Baltimore, through their County Superintendents and Teachers cooperated in making the initial year successful not only in promoting the meets, but in preparing the programs, planning the tracks and attending to countless details.

Best of all, the Counties sent their winners at their own expense to the State-wide Olympiad, June 11. Every boy who came was entertained at the home of some friendly city dweller.

Gibson, J. Barry Mahool, William
H. Morriss, John E. Semmes, Jr.,
Theodore E. Straus, James F. Thrift.

Director, William Burdick, M.D

WHAT THE
SUPERINTENDENT OF
BALTIMORE COUNTY
SAYS

"I am very much pleased with both the spirit and results of the supervision of athletics in the counties of Maryland by the Public Athletic League, so far as I have observed them. The special work the Public Athletic League is doing in Baltimore County has the entire approval of the School Board and the principals and teachers. I trust this work in the State will grow and extend from year to year.

Sincerely yours,

(Signed)

ALBERT S. COOK,
Superintendent

Counties ranked according to the number of boys entering the first county championships of track and field athletics:

Baltimore City	1,215

WHAT THE COMMITTEE
ON RESOLUTIONS OF
THE MARYLAND STATE
TEACHERS' ASSOCIATION
SAYS

"We approve most heartily State-wide school athletics as conducted by the Baltimore Public Athletic League. We thank them and their assistants for their services in making school athletics popular with our people as well as pupils, not alone for its own merits, but also as encouraging better attendance of pupils, more especially in high school grades.

A PART OF 5,000 SPECTATORS AT HAGERSTOWN, WASHINGTON COUNTY CHAMPIONSHIPS

EVERY BOY WHO COMPETED HAD A MEDICAL EXAMINATION

Public Athletic League,
801 Garrett Building,
Baltimore, Maryland.

Gentlemen:—

The Medical Supervisor, or a physician under his direction, examined the competitors at the county athletic meets to see that no one participated who was physically unfit. Where time allowed a complete medical examination was made to discover defects which might later cause serious illness, but every boy was obliged to be free from heart disease or rupture.

The following defects were found:

Chronic ear disease	1
Teeth (3 or more decayed)	25
Adenoids	9
Diseased tonsils	15
Heart disease	10
Rupture	14
Hydrocele	2
Phimosis	9
Varicocele	13
Cryptorchidism	8
Water on the knee	1
Miscellaneous defects	13
Total defects in 94 different boys . . .	120
Total number of boys examined . . .	1,341

The parents of boys in need of care were notified of the defect and general advice was given as to procedure. Hardly any of the serious defects were known to the boys or their parents.

Already 16% of the boys have reported to us that they have been treated.

Respectfully submitted,

ALFRED W. BROWN, M.D.,

Medical Supervisor, P.A.L.

FIRST ANNUAL MARYLAND STATE OLYMPIAD

HOMEWOOD ATHLETIC FIELD

Baltimore, Friday, June 11, 1915
